

Loesche GmbH
Hansaallee 243
D-40549 Düsseldorf

To whom it may concern:

My name is Raymond de Jong and I have been supervisor of Loesche GmbH when erecting Loesche mills in Zaporizhstal factory in Zaporozhye, Ukraine.

Wadim Kadyrov was employed as an English/Russian translator for Loesche supervisors starting from the 4th of September, 2008. During his employment he worked both as interpreter (for oral translations, during meetings, negotiations, for on-site interpreting, etc.) and a translator proper.

When interpreting on the PCI construction site within Zaporizhstal blast furnace workshop, Wadim actively and efficiently ensured communication between me (as a supervisor of Loesche GmbH) and authorities of Zaporizhstal. His competence in technical translation considerably eased mounting of Loesche mills for coal grinding.

Reason for his leave (on the 14th of November, 2008) – planned end of autumn stage of mills installation.

Sincerely,

Representative of Loesche GmbH
